In the Philippines.

It is like a red storm,
In the Philippines;
Like a peep or a dove,
In the Philippines;
Like that superb air
Can you stand players and
And know that there is
In the Philippines.
Careful business were sold
In the Philippines;
That the dinner's getting cold
In the Philippines;
But they may—and that is what
Proves man's universal love,
Because it's getting hot,
In the Philippines.
Nature 'most everything
In the Philippines;
Men can beat all and sing,
In the Philippines;
Sleep a night upon a mat,
And if he can throw a fruit,
In the Philippines.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I had a terrible sufferer from Yellow Jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. B. C. Brown, Jr., recommended Electric Bile Beans, and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible ailment. I am gratefully yours, M. A. Hogarty, Lexington, Ky."

Quite a Concession.

Suffered 27 Years With Kidney Trouble.

Mr. G. A. Stillson, a merchant of Tampico, Ill., writes: "Foley's Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I myself am able to testify to its merits. My face-to-day is living picture of health and Foley's Kidney Cure has made it such. I had suffered twenty-seven years with the disease, and today I feel ten years younger than I did one year ago. I can obtain some wonderful certificates of its medical qualities—A. R. Fisher, Cloverport; R. A. Sheilman, Stephensport; Gordon & Haynes, Paducah; E. A. Witt, Hardinsburg."

MANHOOD REVEALED

The True Test of Character is the Home Life.

A man's behavior in his own home is the best criterion of his real character. If he is cross and peevish there, no amount of prayer meeting participation or piousness in society can make him a real gentleman. His actions towards his wife in the presence of the family constitute a good gauge of his real self. The tenderness of his heart will express itself in the manner of his admonitions, and the breadth of his spirituality will unconsciously to himself at least, be breathed forth in his petitions at the throne of heavenly grace. The head may dictate his life in public, but the heart will give forth its true state in private relations. "He bears living with" was the exclamation a wife pronounced on the death of her husband. "He was good and kind to his family" is a remark often uttered at funerals. A man may beat the drums and confound without in a cool and aloof frame, but in the sacredness of his own home circle he unbends and removes the mask which in self defense he is compelled to wear, and manifests his real self. One who upon all occasions affects piety on his pretense proves himself thereby to be one of God's knaves.

R. M. Geary, Pierson, Mich., writes: "DeWitt's Witch Hazel Salve is curing more people here to-day than all other remedies combined. It cures eczema and all other skin diseases."—Short & Haynes.

AMERICA'S GREATNESS

Uncle Sam Has Money to Throw At The Birds.

HE'S A WARM NUMBER.

Operates The Biggest Public and Private Enterprises in the World.

SOME FACTS AND FIGURES.

Mr. Mulhall, an eminent statistician of England, a few years ago, in an article in the North American Review, analyzed the effective force and power of this country and made the startling statement that the power and effective force of the United States was nearly equal to Great Britain, France and Germany combined. He said: "If we take a survey of mankind in ancient or modern times regarding the physical, moral, intellectual and intellectual forces of nations, we find nothing to compare with the United States."

Professor Francis, a French economist in a recent article in an economic paper of Paris, stated that the wealth and power of the United States was one-fourth of that of the world; that the wealth in 1890 was \$200,000,000, while that of the entire world was \$201,500,000,000.

There is no nation which can compare with ours. It is only by comparison with groups of nations or with the balance of the world that the greatness of these United States is shown.

The total railroad mileage of the United States is nearly half as much as that of the entire world, there being 132,726 miles of railroad exclusive of side tracks in the United States, as against 430,240 miles for the entire world, or 253,474 miles for the balance of the world.

More than one-fourth of the pig iron of the world is produced by this nation, in 1896 being 31,707 tons out of total production of 31,000,831 tons for the entire world.

We produced one-third of the total steel in the world, in 1896 being 5,366,318 tons out of the world's production of 17,261,031 tons.

The copper production of the United States is more than half that of the entire world, being 203,893 tons in 1894, against 373,208 tons for the world, or 50,000 tons more than all the rest of the world.

The coal fields of the United States comprise nearly half of those of the world, being 104,000 square miles, as against 47,200 square miles for the world. We produce more than half of all the petroleum of the world, being in 1894 44,126 barrels, while that of all the world was \$4,230,000,000.

The first products of that the balance of the world, being annually 9,300,000 cubic feet of lumber, against 32,400,000 for the world.

The United States produces more than one-fourth of the gold of the world, this year in 1896 being \$308,000, as against \$202,550,000 for the world.

The silver production of this country is more than one-third of the entire world, being in 1896 \$76,000,000 in value, as against \$213,465,700 in value for the world.

The length of the world's telegraph system in 1897 was 4,008,232 miles, of which there was 2,516,548 miles in America.

The number of newspapers in the United States in 1897 was 20,569, as against 50,000 for the entire world. The number of types of monthly publications in the United States in 1890 was 230,000, while that of the world was 1,300,000.

The number of letters, postal cards, papers, and book packets sent through the mail in 1895 was 5,044,138,718 in the United States, while it was 17,049,443,929 in the entire world. The people of the United States send and half as much mail matter as the balance of the world.

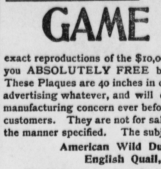

The number of telephones in the United States in 1896, against 1,302,100 in the entire world, or nearly twice as many as the rest of the world.

The human machine starts but once and stops but once and can keep it going longest and most regularly by using DeWitt's Little Early Risers, the famous little pills for constipation and all stomach and liver troubles.—Short & Haynes.

"Now whichever stand or fall,
As God is great, and man is small,
The truth shall triumph over all!
Forever and forevermore, the truth shall triumph over all!"

"I see the champion sword-strokes flash;
I see them fall and hear their clash;
I hear the murderous engines crash;
I see a brother stop to loose a foeman-brother's bloody slash.

"I see the torn and mangled cores,
The dead and dying heap in scores.
The headless rider by his horse,
The wounded captive bayoneted through and through without remorse.

"I hear the dying sufferer cry,
With his crashed fate turned to the sky;
I see him crawl in agony
To the foot pool, and bow and sink into the bloody slime, and die.

"I hear the cool and thank the tanks;
I see the mad chase on the flanks;
The rout, the gate, the broken ranks,
The vaquiched equadrans dross heading down the river's bridge-less banks.

"I see the death grip on the plain,
The grappling monsters on the main,
The tens of thousands that are slain,
And all the speechless suffering and agony of heart and brain.

"I see the dark and bloody spots,
The crowded rooms and crowded cots,
The bleaching bones, the battle bolts,
And writ on many a nameless grave, a legend of forget-me-nots."

The little brick church in the hollow was a very unpretentious building, as was also the parsonage in the adjoining lot, but certainly the new minister was a far more imposing figure than the terminated congregation of the little brick church.

"You'll wear a mighty fine coat for a country pastor," said Farmer Phillips, "and I heard he got a deal of 'em schoolin' in foreign parts."

"Yes, he has," said Fannie Morris, the daughter of the rich miller, "he is highly educated. They say he writes in Latin and Greek."

"Well, he's a good one, I'll give him a favor to be assigned to a country church," said Mr. Phillips.

"He's a good hands 'n' powerful white for a man," said Mrs. Phillips.

When Farmer Phillips turned the two gray horses into the pike, he said to Mrs. Phillips: "Yes, sis, 'em in 'em for a country pastor, but I don't know 'em ain't too good for the Fourth of July, and it ain't a bad idea at all for to help out the school teacher along while we're celebratin'."

"Lawd, erred. Mr. Phillips blundered in that way, but my and the woods looks like a circus," said Mrs. Phillips.

The woods were, indeed, gay in the extreme. Strips of bonnet were festooned from the trees, and the girls wore the brilliant paper fans, and everywhere there were flags.

"Well, I'll give you the Fourth of July," said Farmer Phillips, mollifying about him. "I'm glad, sis, that you and the boys are here."

"The new minister is a fluent speaker," said Miss Morris. "We ought to have a fair, and we can't do it at the brick church, but we cannot afford to double the collection. If Mr. Foyton were here, he would say that if we have a festival and a fair, conducted satisfactorily, we're all right." "I don't know," said the minister, "I am told that the woods festival was 'fair,' added to the woods festival was 'large,' but Miss Pannell's arguments are so strong that I am inclined to think though more than one member of the congregation expressed mild doubts in the affirmative, that the festival was unanimously decided to mix the church affairs and the celebration of the glorious Fourth."

Farmer Phillips' docility remained unimpaired. "I certainly do want mother to see," he said. They traveled along the pike with vehicles before and behind them, but when they turned around to look back, they found no one and brought his horses to a standstill.

"There ain't no harm in celebratin' the Fourth of July," he said. "I'll be here o' July all at once," he declared, leading him back. "The o'ld o' a little brick here for the well good o' the country. I'll be always been a great hand for patriotism, a powerful hand for the good o' the country. I'll be rightly love his country and be without love in his heart for his fellow man. Now that no true American citizen, I'll be a good citizen. I'll be a true human child turned into a heffoon on the Fourth o' July. He glared across at the farmer Phillips who was with him in speechless amazement.

"Do you think," asked Farmer Phillips, "that I'll be carry such a thing as this to the house yonder? Do you think I would let mother look at me in a glass?"

He divested the little clown of his gay headpiece and threw it out upon the ground.

"Laws, William!" gasped Mrs. Phillips.

"The little clown's caused the fable face between his great hands. 'Now help me off with these heggins, eek.'"

"Miss Fannie sets powerful store on the little clown's fakin'," said Mrs. Phillips. "I'll be that she'll be helped off with the legging."

The little clown rolled from side to side in the grass.

I met old friends I had not seen since girlhood, for instance Della Ditto, and to think how the past came up! How the gates of memory stood ajar! How buried thoughts were resurrected! But the present is with us which we enjoyed to the fullest.

Liver Trouble

When the yellow flag of quarantine is hoisted over a dwelling it means disease and danger. So when the yellow flag flies in the face—when the cheek is sallow and the clear white of the eye is dyed saffron—there is danger. If it is liver trouble. The liver is one of the most important organs of the body. On the proper discharge of its functions depend human health and happiness. When the liver fails of its duty, poisons at once begin to generate, and other organs of the body become involved. Never neglect the liver if you value health. If you are suffering from liver trouble, begin at once the use of Ayer's Pills and you will find prompt relief and permanent cure.

"Some time since I took a sudden cold and could not get rid of it. Being subject to catarrh and bronchial trouble I coughed terribly. I lost my appetite and grew poor and weak and I did not feel like work. I began taking Hood's Sarsaparilla. In a short time the cough disappeared, I slept well, had a good appetite and I was better in every way. Last spring I was not feeling well, I had no appetite and no strength. I resorted to Hood's Sarsaparilla and soon felt more like work. My little nephew was a delicate child and had a humor which troubled him so he could not rest at night. He has taken a few bottles of Hood's Sarsaparilla and now he has a good appetite and is able to sleep." Miss Annie J. FARMAN, South Danbury, Mass.
